EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rachael Leventhal (Reg. 54,266) on March 19, 2007.

Please amend the claim(s) as follows:

39. (Currently Amended) The integrated circuit of claim 38, wherein ~~further comprising a floating diffusion region adjacent a gate of said transistor, said single active area extension region and said halo implant~~ are adjacent at least part of said floating diffusion region.

Election/Restrictions

Claim 38 is directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(b), claim 44, directed to a non-elected species, previously withdrawn from consideration as a result of a restriction requirement, is hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Drawings

The drawings were received on May 15, 2006. These drawings are acceptable.

Allowable Subject Matter

Claims 1, 4-10, 13, 14, 26-31, 38, 39, and 42-45 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 26, the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including said floating diffusion region is closer to said reset gate than to said transfer gate.

Regarding claim 38, the prior art of record, either singularly or in combination, does not disclose or suggest the combination of limitations including said active area extension region and said floating diffusion region are laterally spaced away from a gate of said transistor by a portion of a substrate supporting said transistor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matthew C. Landau whose telephone number is (571) 272-1731.

The examiner can normally be reached from 8:30 AM - 5:30 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kenneth Parker can be reached on (571) 272-2298.
